by S.E.T.A. S.R.L.

**Tradizione e qualità da
oltre mezzo secolo**

L'azienda nasce nel 1966 a Manzano, nel cuore del Distretto della Sedia. Da piccola torneria artigiana si evolve nel corso degli anni in una realtà industriale specializzata nella produzione di sedute e complementi d'arredo in legno.

Il successo dell'azienda di proprietà della famiglia di Sandro Plaino, uno dei cinque fondatori storici, risiede nella conservazione di una qualità tutta italiana e nel forte legame con le proprie radici, uniti all'attenzione per gli investimenti nel capitale umano e relazionale, all'evoluzione tecnologica ed al rispetto dell'ambiente.

In sintesi, creatività italiana, efficienza industriale, conoscenze e competenze della tradizione artigianale, cura del prodotto ed attenzione al cliente sono i tratti

distintivi di un'azienda a conduzione familiare con un processo produttivo fortemente integrato che, partendo dall'acquisto del tronco, arriva alla consegna al cliente del prodotto finito con la maggior parte di lavorazioni realizzate internamente.

Tradition and quality for over half a century

S.E.T.A. S.R.L. was founded in 1966 in Manzano, in the heart of the Chair District. From a small artisan turnery, it has evolved over the years into an industrial company specialized in the production of wooden chairs and furnishing accessories.

The success of the company owned by the family of Sandro Plaino, one of the five historical founders, lies in the preservation of the all-Italian quality and in the strong bond with its roots, combined with the attention to investments in human and relational capital, technological evolution and respect for the environment.

In summary, the hallmarks of our family-run company are Italian creativity, industrial efficiency, knowledge and skills of the artisan tradition, product care and attention to the client. S.E.T.A S.R.L.'s highly integrated production process starts from the purchase of log and arrives at the delivery to the customer of the finished product with most of the production carried out internally.
